- **Others: SEO, Page Optimization**

PROJECTS

Movie Recommender Website

Tech Stack: JavaScript, React, Redux, TailwindCSS, API, SEO, Page Optimization

- Developed a dynamic movie recommendation application that suggests movies based on the user's mood or selected genre.
- Integrated a third-party API to fetch movie data, including descriptions, genres, and ratings.
- Implemented Redux for efficient state management and optimized page performance for a seamless user experience.
- Designed a fully responsive and visually appealing UI using TailwindCSS, ensuring compatibility across devices.
- Focused on SEO techniques to improve search engine visibility

KnowYourCountry

Tech Stack: HTML, JavaScript, TailwindCSS, API

- Built an interactive web application that allows users to search for a country and displays detailed information, such as the flag, population, and other key statistics.
- Leveraged a third-party API to fetch real-time country data.
- Designed a responsive and modern UI using TailwindCSS, ensuring a user-friendly experience on both desktop and mobile devices.
- Focused on delivering a clean and intuitive interface with optimized performance.

EXPERIENCE

Junior Front-End Developer Intern - **Eleextr Tech**   [Aug. 2024 - Oct. 2024] *Lagos, Nigeria*
